

CITIZENS' ARREST – TUESDAY, MARCH 9

At Dupont Circle, Washington, DC

Action at 10:30 a.m.

We need your help to conduct a mass citizens' arrest of the insurance companies! Join us to send a message to Congress to listen to the people who elected them, not the corporations!

Insurance company executives (leaders of America's Health Insurance Plans, or AHIP) are meeting in Washington, DC.

Community organizing groups, including the Center for Community Change, are gathering a citizens' posse to hold them accountable for their crimes against America's health -- and to stiffen the spines of those in Congress to do what we elected them to do: pass health care reform.

We need Congress to listen to us, not the insurance companies. We won't allow another year of 45,000 avoidable deaths and a million bankruptcies due to medical bills.

Our goal is to have a minimum of 100 civic leaders participate in an act of civil disobedience – including the risk of arrest – to send the strongest message possible that when the health insurance companies win, the people lose. Come support them and join the posse.

THANK YOU FOR YOUR SUPPORT!

Please contact Allison Mitchell, Annual Fund Manager, at amitchell@communitychange.org if you would like to volunteer or need additional information.
